

### Setting up and using the iTero-eXceed Bridge

To set up the iTero-eXceed bridge, please contact the iTero help desks and mention that you wish to have the scanner integrated with eXceed, Lab number 14146.

For easier identification by the iTero support team, ensure you have the phone number of the office the scanner is registered with.

This option is also open for users of previous iTero versions
